## WHAT DELEGATES HAVE SAID ABOUT OUR COURSES...

**IGNITING LEADERS  
CHANGING LIVES**

[www.pixl.org.uk](http://www.pixl.org.uk)

# PIXL

“

The most practically applicable piece of CPD I've ever done. So much to lift and put into your own context/goals. Can't recommend it highly enough!

”

“

DO IT! Make sure you block out the time, turn off the emails and avoid any distractions, this course needs your attention and you deserve the information that is shared.

”

“

I would highly recommend this course. You immediately come away with practical ideas based on secure, evidence-based research.

”

“

Sometimes our problems are so big but there is great comfort in knowing you are not alone.

”

“

It has reinforced some of my thinking, but placed it in a 'big picture' so it will help me to make our aims and methods clearer to staff. It has also reinforced the need to give things time to have impact - patient for outcomes.

”

“

All of this course was helpful – it worked well together to give me more confidence.

”

“

It's really helpful for beginners with little experience with leading!

”

“

It gives strategies that will make you a better leader and processes that will save you time.

”

# PiXL

“

It has given me more clarity in my role, and helped me with a host of skills and techniques to motivate and challenge teachers to create a positive buy-in to make a difference to children and their life chances.

”

“

I'd say this course is an absolute must. I have found that by the end of each session, even after an exhausting day, I have felt motivated and uplifted.

”

“

The whole course is incredible. Everyone who speaks is relatable and genuine. The conversations we have on the chat make us feel like a community all going through very similar things.

”

“

Particularly great was the session on brutal facts and the clarity cycle, structure of core team meetings and crucial conversations.

”

“

I have a better understanding of how to analyse key trends in data, handle difficult conversations and better structure my meetings with my team.

”

“

The course leads were phenomenal. They had the expertise, energy and focus to ensure that all content was engaging, applicable to actual practice and ultimately inspiring. The residential was incredibly valuable: it provided the space, time and focus to create opportunities for seismic shifts in my perspective and approach to leadership. It has been the main opportunity there was for really creating and consolidating the network with other members of the course and ultimately is the main feature that sets the PiXL Leadership course apart from NPQ etc. In addition to this, the range of speakers and their experience of leadership was genuinely inspiring and interesting, which again is not something that is offered with NPQs. In an educational world of constant changes and challenges, it is easy to be worn down – the PiXL Leadership course has provided a protective armour of inspiration, and the tools I need to continue to challenge underperformance and lead change in my context. The effects of the course will be long lasting on me personally, and on my practice.

”

“

Being able to speak to experienced members who know exactly what you might be going through and have solutions that you do not know yet is a game changer.

”

“

I really enjoyed the honest approach to change within schools. The course was grounded within reality and real-life scenarios and experiences, drawing on experience ... with the theory supporting this.”

”

“

My whole perspective on how to deal with a lot of the things that hold me back or affect me personally in a negative way has changed, which is already having a positive impact on the students I teach and the people around me.

”

“

Every teacher would benefit from listening - to spark passion and remind teachers why we got into this career.

”

“

The course has the potential to be transformational, for participants who are willing to engage fully and reflect on their own personal leadership practice. It's some of the best leadership training I have ever had, providing me with a framework through which to examine and reflect on my own leadership style and ways to develop my thinking, behaviours and traits within my current role.

”

“

Definitely do it  
- the best CPD I  
have ever done.

”
