HELLO!

What you have done since March 2020 has been remarkable. We know that you were remarkable long before that but the pandemic has highlighted the importance of teachers and schools across the world. You are at the heart of so much; so much is asked of you and you have the capacity to make an enormous difference in the lives of the nation's young people. We are here to help you as you navigate the challenges and experience the highs and the lows of leadership.

You are not on your own: you are part of a network of thousands of school leaders, across all educational settings, all ready to create change. **Our part in that is to get behind these 'change bringers' - to inspire and equip leaders from across this vast network to change young people's lives.** That means we will always be committed to providing the latest research, hearing from colleagues, helping provide growth opportunities and giving you the resources to save you time and energy.

We are standing with you every step of the way. We know your work changes lives. We know YOUR leadership changes lives and we are here to help make that happen.
