ALTERNATIVE

The UK's largest education leadership network

Each year, PiXL supports around 40,000 leaders in 2,500 schools from every corner of education.

Our task is simply this: to equip and inspire school leaders to be 'change bringers' wherever they find themselves.

A note from the PiXL CEO, Rachel Johnson

As leaders within the nation's secondary schools, you are truly remarkable.

We knew that long before the pandemic, but the past two years have highlighted the importance of teachers and schools across the world. You are at the heart of so much; so much is asked of you, and you have the capacity to make an enormous difference in the lives of the nation's young people.

Our part in that is to get behind you – to inspire and equip your leaders; to help them navigate the highs and lows of leadership. That means we will always be committed to providing the latest research, hearing from colleagues, helping provide growth opportunities and providing resources that save busy leaders time and energy.

We are standing with you every step of the way. We know your work changes lives. We know YOUR leadership changes lives and we are here to help make that happen.

What secondary school leaders say...

PiXL

“

PiXL's work is truly **remarkable** and has been a saviour and sanctuary of common sense and really useful strategies at a time of madness!

”

“

I've worked with PiXL for 8 years now and every meeting leaves me **inspired to try new ideas, reassured about things my school is doing well**, and resolved to continually do better for our young people.

”

“

The beauty of PiXL is that **you can pick and mix what you need and make it work for your school**. You can be as PiXL as you want to be, it's a continuum.
