PEARL LEADERSHIP PROMPTS

SERIES 9

EPISODE 3: Taylor

For discussion in your teams or for your own personal reflection.

1. Taylor Swift’s world-record breaking ‘Eras’ tour was a clever representation of the different stages of her musical life. There were different sounds, different looks, different emotions and contexts in each era. The idea of ‘eras’ is a helpful concept for us too.

- a) Individually, go back through the decades of your life and give each one a word that sums up that decade now that you look back with hindsight. For example, your first 10 years may have been the ‘settled era’, the next one was more about your ‘identity era’, the next one your ‘disruption era’.

- b) In your leadership, what eras have your team been through? It may be far less than a decade, it may have lasted months or only a few years. Was the start of your leadership your ‘discovery era’, then the ‘confident era’ then the ‘daring era’ or something else? As a team, what are the eras you have been through together and what might the era be that you are entering into now?
